RESEARCH ON THE MANAGEMENT OF THE SOYBEAN STEM BORER IN KANSAS

*Phillip E. Sloderbeck¹, Lawrent L. Buschman¹, and Randall A. Higgins²

¹ Southwest Research and Extension Center, 4500 E. Mary St. Garden City, KS, USA

² Kansas State University, 123 Umberger Hall, Manhattan KS, USA

Review of the current research being conducted on the soybean stem borer (*Dectes texanus texanus*) in Kansas. Presentation will focus on recent field trails where insecticides were used in an attempt to control soybean stem borer infestations.
